

**ALUMINIUM GATES
LONDON**

ALUMINIUM GATES

ALUMINIUM GATES

Our expertly designed standard gates are crafted to complement any home and garden seamlessly.

Custom-Made Solutions & Bespoke Finishes

We specialise in crafting custom-made gates, offering you specific width modifications and the option to request bespoke RAL colours for a personalised touch.

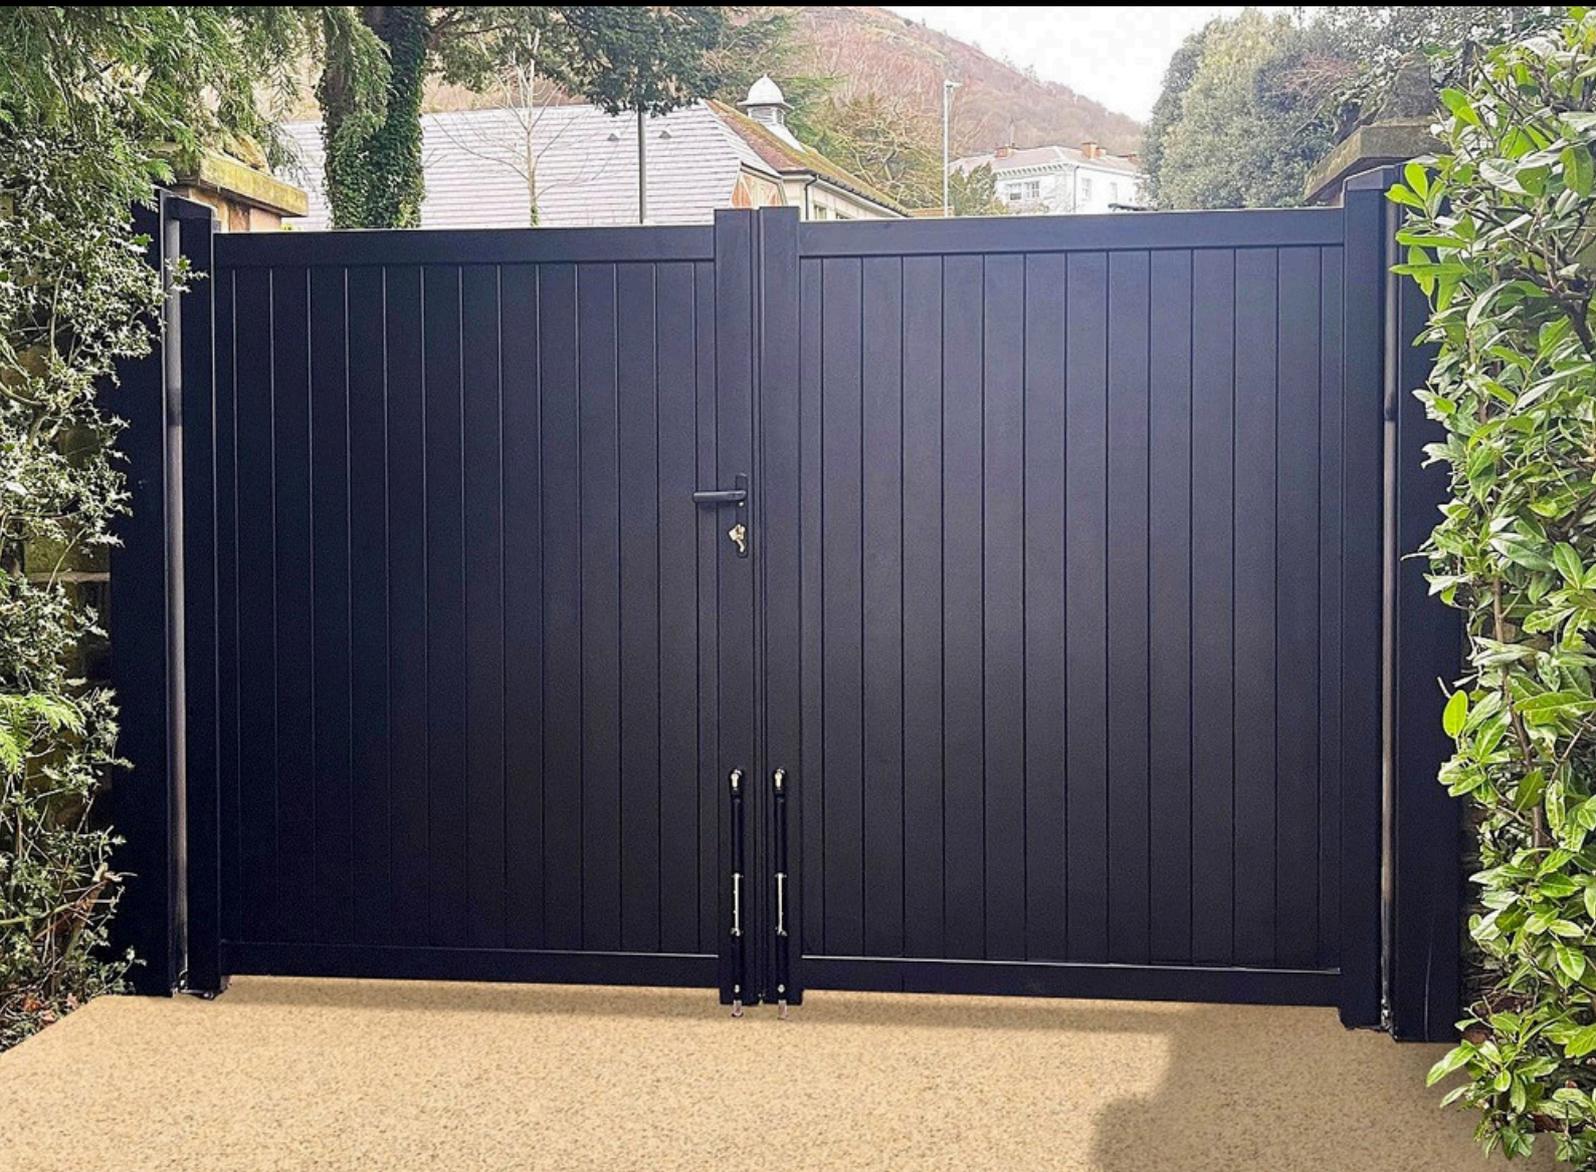

Why Choose Aluminium Gates?

Aluminium gates are renowned for their strength, durability, and corrosion resistance. As a premium and sustainable product, aluminium is infinitely recyclable and environmentally friendly, requiring minimal maintenance. A simple wipe-down with soapy water and a microfibre cloth keeps them looking pristine for years.

Fast Delivery & Nationwide Coverage

AGD001DG

Aluminium Driveway Gate, flat top, fully boarded vertical solid infill, providing full privacy, with a contemporary, modern aesthetic.

SLIDING GATES

We specialise in crafting fully customisable aluminium sliding gates designed to meet your customers' exact requirements - with no hidden extras.

Drawing Provided for Installation Reference

SLIDING GATES

We specialise in crafting fully customisable aluminium sliding gates designed to meet your customers' exact requirements - with no hidden extras.

The Aluminium Sliding Gate - a harmonious blend of modern aesthetics and cutting-edge engineering designed to elevate both the security and visual appeal of your property.

Sleek Integration with Advanced Technology

Our cantilever gate features a main tower post that seamlessly houses the Roger Technology motor and gearbox. This internal integration eliminates visible mechanical components, resulting in a clean and streamlined appearance that enhances the gate's contemporary design.

Innovative Concealed Mechanisms

The gate's aluminium extruded lower beam is meticulously crafted to discreetly enclose the nylon racking system. Unlike conventional designs where racking is exposed on the beam's side, our approach ensures a more aesthetically pleasing profile without compromising functionality.

Versatile Design Options

- **Cantilever Sliding Gates:** Ideal for uneven terrains or areas where ground tracks are impractical.
- **Tracked Sliding Gates:** Suitable for installations where ground conditions permit track laying.
- **Convertible Double Swing Gates:** Our double swing gate designs can be seamlessly adapted into sliding gates, providing over twenty distinct design options to cater to various architectural preferences.

Key Features and Benefits

- **Enhanced Aesthetics:** Concealed mechanical components contribute to a sleek and modern look.
- **Space Efficiency:** Sliding mechanisms require less operational space compared to traditional swing gates.
- **Customisation:** A wide range of designs ensures a perfect match for your property's style.
- **Durability:** High-quality aluminium construction offers longevity and resistance to environmental factors.

ALUMINIUM CANTILEVER GATES

We specialise in crafting fully customisable aluminium cantilever gates designed to meet your customers' exact requirements - with no hidden extras.

ALUMINIUM CANTILEVER GATES

We specialise in crafting fully customisable aluminium cantilever gates designed to meet your customers' exact requirements - with no hidden extras.

- Louvre
- Open Board
- Semi-Open Board
- Fully Boarded (Horizontal or Vertical)

Flexible Sizing Options:

- Up to 5.5 metres wide and 2.0 metres high with a 45-degree tension bar
- Up to 5.0 metres wide and 2.0 metres high with a complete board frame

Operational Versatility:

- Available as Manual or Fully Automated systems

Diverse Aesthetic Choices:

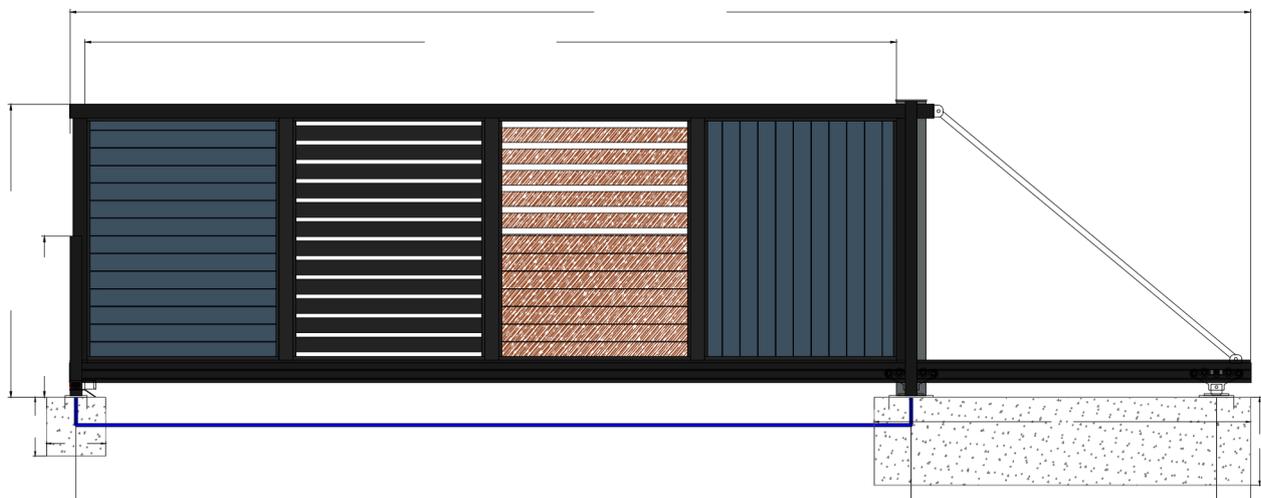

- Standard colors include Black, Anthracite Grey, and Wood Effect Infill
- Additional colors available upon request

Efficient Installation Process:

- Our sliding gates are pre-assembled, tested, and delivered to your site via our own hi-ab vehicles, ensuring a genuine "Plug & Play" installation experience

Advanced Automation Technology:

- Integrated Roger Technology Brushless Motor/Gearbox for super-intensive use
- Encoder-controlled for precision, eliminating the need for limit switches or strikers
- Equipped with dual sets of hard-wired photo cells for enhanced safety
- Features integrated nylon gear racking with a steel core, discreetly housed within our proprietary aluminium beam design

ALUMINIUM TRACKED GATES

We specialise in crafting fully customisable aluminium tracked gates designed to meet your customers' exact requirements - with no hidden extras.

ALUMINIUM TRACKED GATES

We specialise in crafting fully customisable aluminium tracked gates designed to meet your customers' exact requirements - with no hidden extras.

Key Features of Our Tracked Sliding Gates:

Robust Warranties:

- 3-Year Warranty on Mechanical and Electrical Components
- 5-Year Warranty on Aluminium Gate Structure

Flexible Sizing Options:

- Up to 5.5 metres wide and 2.0 metres high with a complete board frame

Diverse Aesthetic Choices:

- Standard colours include Black, Anthracite Grey
- Additional colors available upon request

Efficient Installation Process:

- Our sliding gates are pre-assembled, tested, and delivered to your site via our own hi-ab vehicles, ensuring a genuine "Plug & Play" installation experience

Infills Options:

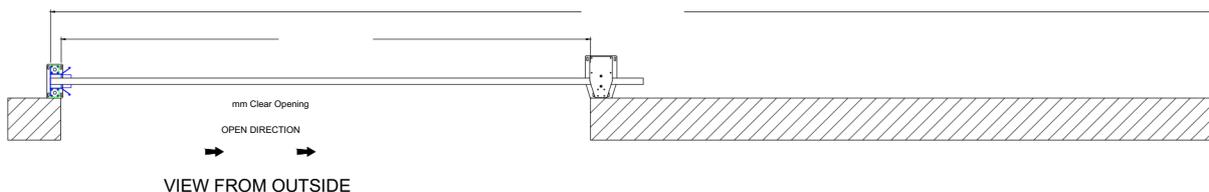

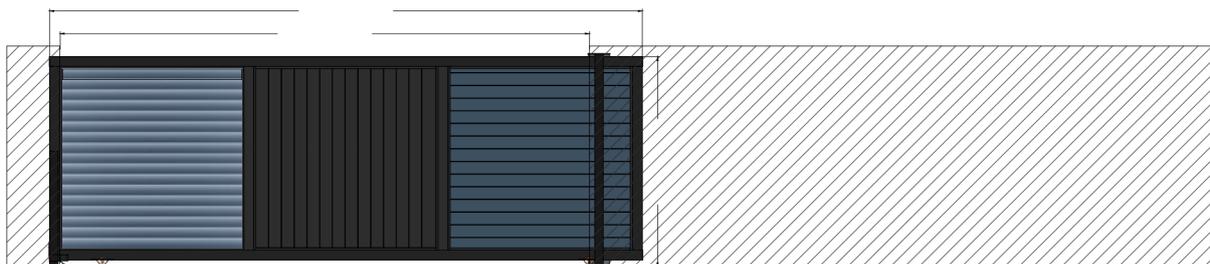

- Louvre
- Fully Boarded (Horizontal or Vertical)

Operational Versatility:

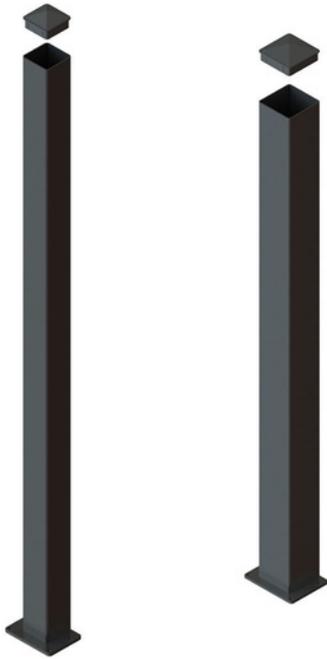

- Available as Manual or Fully Automated systems

ALUMINIUM POSTS

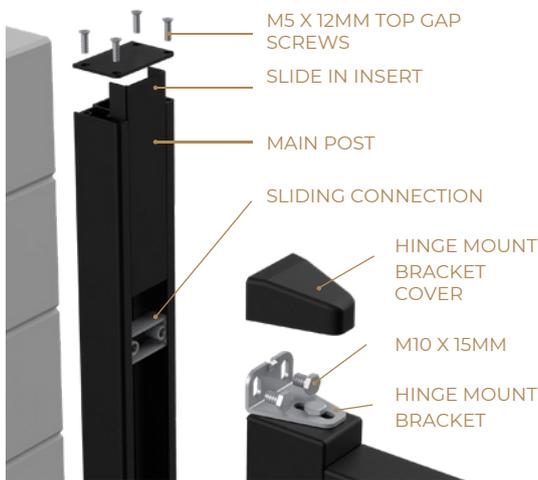

ALUMINIUM POSTS

Posts combine strength with a lightweight design - ideal for both residential and commercial applications.

- Constructed from 3.5mm wall aluminium (or 5mm wall thickness for Heavy Duty options)
- Supplied with a pyramid-style post cap as standard
- Features a three-sided welded baseplate for a secure, tight fit against walls
- Versatile installation – can be bolted down with included fixings or buried and concreted into place

100/100/3.5/2400mm	150/150/3.5/3000mm
100/100/3.5/3000mm	150/150/5/2400mm
150/150/3.5/2400mm	150/150/5/3000mm

Colours available: Black / Anthracite Grey / Wood Effect

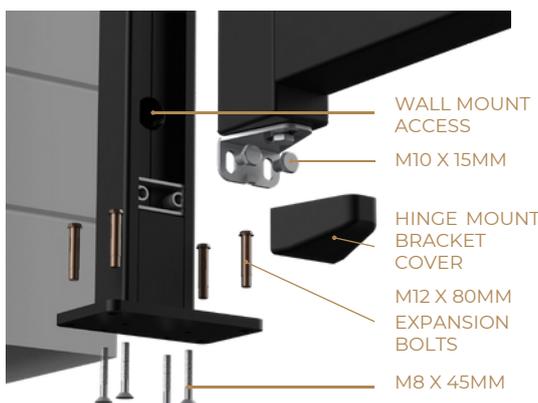

WALL MOUNTED POSTS

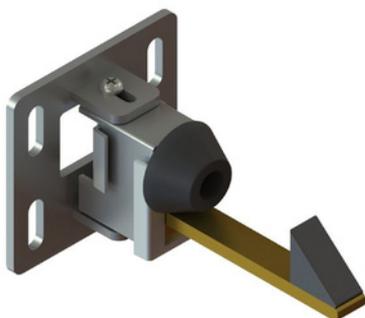

Our wall mounted pedestrian gate posts have been designed with the installer in mind.

These come with easy to fix hinge points built in and are available in either 2000mm or 2400mm lengths. The removable base plate allows for firm fixing to a solid base and the built-in access points allow for multiple wall fixings to make the installation more secure.

The receiver post has the same fixing options and comes with a full-length lock keep which inserts into the post for extra privacy.

Colours available: Black / Anthracite Grey

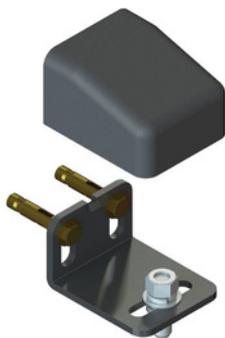

PEDESTRIAN GATE STOP

AGDA-01

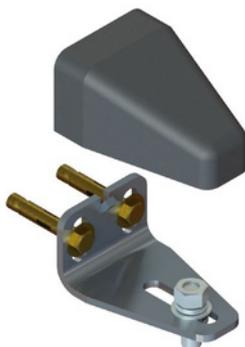

- Custom-designed for pedestrian gates
- Holds the gate in an open position
- Foot-operated arm for easy release when closing

REAR MOUNTED HINGE

AGDA-02

- Optional hinge for gates mounted on the rear of a brick pier or posts
- Allows for lateral adjustment, simplifying installation

ADJUSTABLE HINGES

AGDA-03 (DG) / AGDA-07 (PG)

- Supplied as standard with all gates
- Adjustable for easy fitting between brickwork or posts

FLOOR MOUNTED HINGE

AGDA-04

- Supplied as standard with all gates
- Designed for use with aluminium posts
- Provides additional support when a wall-mounted hinge isn't an option

GATE LOCK AND HANDLE SET

AGDA-05 (DG) / AGDA-09 (PG)

- RMGA-09 comes standard for pedestrian gates, ensuring secure locking
- RMGA-05 can be added to double gates as an optional manual locking system

GATE STOP

AGDA-06

- Designed for double gates
- Prevents gates from swinging past their stop position
- Works with gates fitted with a lock and handle; the adjustable arm can be removed for automatic gates

LOCINOX KEYDROP

AGDL01/02 A lockable drop bolt that can be secured in both the open and closed positions. Available in black and anthracite grey, offering enhanced security for manually operated gates

LOCINOX ALUMINIUM GATE HOLD-BACK CATCH

AGDL05 Durable aluminium gate catcher with an adjustable and reversible hook. Features a rubber stop and polyamide catch to protect the gate frame. Designed for fast and secure fixing in concrete.

OPTIONAL EXTRAS

LOCINOX BOLT-ON OFF-CENTRED GROUND STOP

AGDL06 Robust surface-mounted ground stop for

double-wing gates. Suitable for drop bolts with a maximum diameter of 20mm.

B-SAFE STAINLESS STEEL SAFETY CABLE

AGDA-02 Prevents gate collapse in the event of hinge

failure.

Patented Quick-Fix system allows secure installation into the gate post. Rated for gates up to 500 kg, with a load capacity of 1000 kg.

DIGITAL SMART LOCK

KEYPAD

Ruveno Slim Smart Fingerprint Lock with handles. Offers multiple keyless entry options including Bluetooth, fingerprint, keypad, card, and manual key. Designed for aluminium gates.
